THIS FAIR IS ORGANIZED WITH AUDIT OF TOBB (THE UNION OF CHAMBERS AND COMMODITY EXCHANGES OF TURKEY) IN ACCORDANCE WITH THE LAW NO.5174

For 28 Years, Türkiye's Uninterrupted Energy Power

ICCI 2024-28th International Energy and Environment Fair and Conference

With the support of the Republic of Türkiye's Ministry of Energy and Natural Resources and EMRA, organized by Sektörel Fuarçılık, in collaboration with Kojentürk Association, brought together the energy sector from **April 24-26, 2024**. As Türkiye's and the surrounding region's largest international energy fair, it hosted nearly 200 local and international companies, facilitating productive business meetings and achieving great success.

Held under the motto "*Discover the Future of Energy*" and featuring a high level of participation from industry professionals, the **ICCI 2024** conferences spanned three days with over 30 sessions across four halls, featuring 12 keynote speakers, the event captured the pulse of the energy sector.

Foreign delegations and state representatives showed significant interest in the **ICCI 2024-28th Energy and Environment Fair and Conference**. Delegations from relevant ministries, consulates, and commercial attachés from many countries, including Belgium, Brazil, Denmark, Croatia, Iran, Italy, Poland, Russia, and Türkiye, participated.

ICCI 2025-29th International Energy and Environment Fair and Conference will be held from **April 24-26, 2025**, at the **Istanbul Expo Center Halls 1 and 3**. This year's event will provide an exciting platform to showcase the latest developments and innovations in the energy and environment sectors. Participants will have the opportunity to meet industry leaders, form collaborations, and gain inspiration for future projects.

ICCI 2024 Opening Ceremony

Mr. Prof. Dr. Cevahir Uzkurt
Spokesperson, Committee on Industry, Trade,
Energy, Natural Resources and Technology of the
Turkish Grand National Assembly

Mr. Alper Kalaycı
President, ENSİA Association

Mr. Hamdi Hoplamaz
President, KBSD Association

Mr. Yavuz Aydın
Chairman of the Executive Board, ICCI

Mr. Cem Şenel
General Manager, TG Expo

The opening speeches of the **ICCI 2024 - 28th International Energy and Environment Fair and Conference** were delivered by **Mr. Cem Şenel**, General Manager of TG Expo; **Mr. Yavuz Aydın**, Chairman of the Executive Board of ICCI; **Mr. Alper Kalaycı**, President of ENSİA Association; **Mr. Hamdi Hoplamaz**, President of KBSD Association; and **Prof. Dr. Cevahir Uzkurt**, Spokesperson of the Committee on Industry, Trade, Energy, Natural Resources, and Technology of the Turkish Grand National Assembly.

"From Sustainable Energy to Sustainable Development: What Kind of Industrial Policy?"

"Geothermal Energy Goals of Türkiye"

"Groundbreaking Milestones in Electric Conversion and Storage Technologies"

"Hydrogen Ecosystem and Sectoral Transformation"

"Istanbul Converts Its Waste into Energy"

"Corporate Sustainability Strategies"

"Decarbonization, Hydrogen and Alternative Resources in Energy Production"

"Digital Transformation and Start-up Ecosystem"

"Energy Storage"

"ESCO Model in Energy Investments"

"Financing Solutions in Energy Investment"

"Global and National Projections in Energy Markets"

"Global Successes of Turkish Companies"

"Green Energy Production Certificates"

"Green Financing and Decarbonization"

"Hydrogen in Transportation and Industry"

"Natural Gas Journey of Türkiye"

"New Applications in Energy Production"

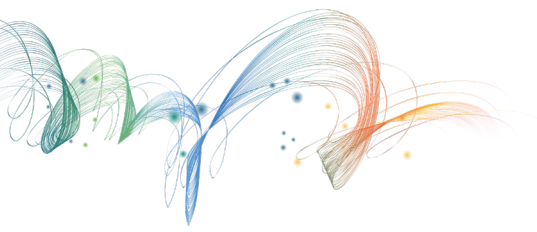

"Nuclear Energy and Small Modular Reactors (SMRs) in the New Century"

"Service and Maintenance in Power Plants"

"Solar Chat"

"Strong Ideas, Sustainable Future"

"Transformation of Waste Heat Resources to Useful Energy"

What Did They Say About ICCI 2024?

“ Cemil Topak

Chairman of the Board of Directors of ETMD

On the occasion of ICCI, we hope to better understand the developments in the industry and contribute by making higher-level collaborations in the future. We are pleased to see top executives here. Additionally, the quality of the conferences is quite high. Thank you very much for providing us with this opportunity. ”

“ Emrah Öztunç

Energy Sector Advisor at the Embassy of Denmark and the Danish Energy Agency

I highly recommend following ICCI and, if possible, reaching out to some of the speakers because we have a lot of information to share with you. We offer important information on how we can improve the energy sector in Türkiye and bring energy efficiency measures to Türkiye. Denmark is a country that has reached a level of technology that can really work for some industries in Türkiye. I recommend following the ICCI website, and we hope to see more audience members here next year. ”

“ Gerard Seghers

Commercial Attaché of Belgium

This year, I was invited to give a presentation here, and it was a great pleasure for me to do so. Belgium is where the energy transition is happening today. You should definitely attend ICCI conferences. ICCI is a very interesting place where you can meet very interesting people. Türkiye is a beautiful country, Istanbul is a wonderful city, and ICCI is a great fair. ”

“ Saeed Thani Hareb Juma Al Dhaheri

Ambassador of the United Arab Emirates

We are the leading country in renewable energy in the region. It is very important for us to share ideas with Türkiye. There are many companies participating in this fair, which opens the door for foreign companies to collaborate with Turkish companies. ICCI 2024 is a special day, an unforgettable event. ”

“ Onur Ünlü

General Manager of Escon Energy, President of the Energy Management Efficiency Association

We had a very effective session with expert colleagues. Those who couldn't attend missed many important topics such as industry, buildings, renewable energy, and the national energy efficiency action plan. I hope we will be together at the next fair. Energy efficiency is one of the most important problems of our country, and we continue our efforts to increase investments, interest, and attention in this regard. I also thank ICCI for its contributions. ”

Photos from ICCI 2024

What Did They Say About ICCI 2024?

Oğuz Can

“ Chairman of the Board of Directors at
ENVER, General Manager at Teksan

The fair was extremely effective; participation was quite high. On the conference side, sessions were held simultaneously in 4 conference rooms at 4 different areas. The speakers were carefully selected and knowledgeable in their fields, and those who couldn't attend really missed out on a lot of current topics. Thank you, it was a successful organization. ”

“ Ahmet Yılmaz

Group Manager at Zorlu Energy

This year, we participated in ICCI regarding Zorlu Energy's wind services. We explained the services we will offer in wind power plants to all our stakeholders. The visitor profile consisted generally of people who wanted to improve themselves in the technical and engineering fields and those who had knowledge from different sectors. The fair met our expectations this year. Thank you very much. ”

“ Sedat Akar

General Manager of Topkapı Industrial
Products Trading Co. Ltd.

We have been participating ICCI without interruption since the first one. ICCI is a very good specialized fair in terms of visitor profile. Those who work in the field or want to invest in energy come to this fair. Therefore, we can easily say that we are quite satisfied with the profile. The organizing company and the Cogeneration Association play an important role both in the establishment and long-term continuation of ICCI. I wish you success. ”

“ Yüksel Yalçın

General Manager of Istanbul Energy Inc.

At ICCI, we follow the course of our own technology and seize opportunities to improve ourselves. Here, we see almost the latest and most current versions of each piece of equipment and their technological developments. We meet with the companies we do business with in both the public and private sectors here, take their demands, and update their new demands. In this way, we both improve ourselves and create a very important environment that contributes to our branding. ICCI brings together the actors of the sector by communicating with participant companies and customer portfolios, and this is very valuable. ”

“ Arif Aytaç Aygün

Technical Sales Engineer at Megger Türkiye

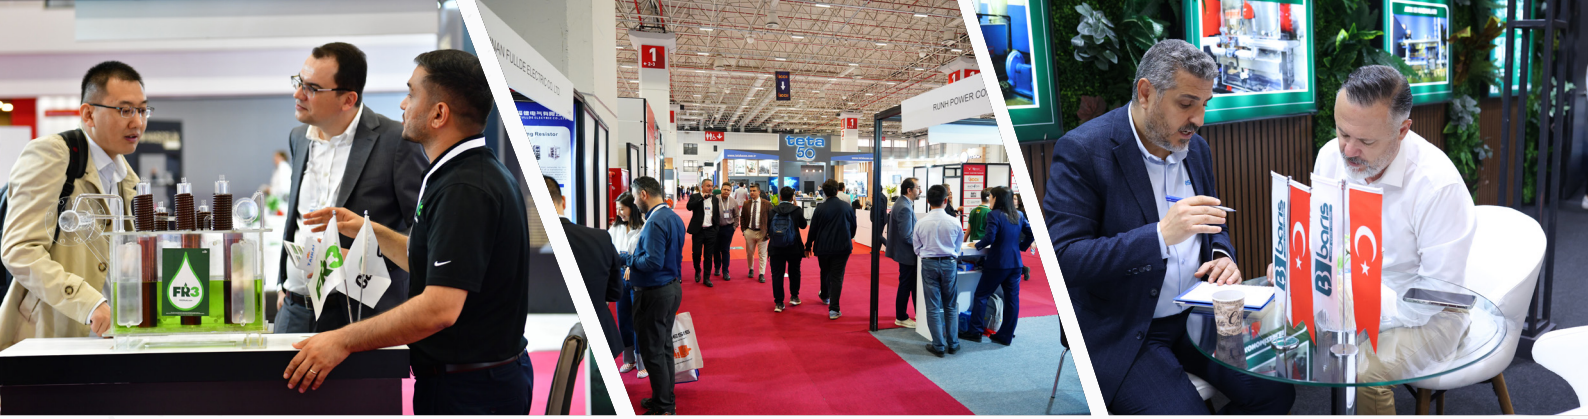

We were very satisfied with the fair; the participants showed intense interest. For 3 days, we tried to serve our participants intensively and introduced our products. During this process, we had extensive information sharing with both our participants and visitors. The visitor profile consisted of people who knew what they wanted and were proven in the commitment or application sector. When they came to us, they already had a satisfactory level of information, which allowed us to share quality information. ”

“ Hasan Yener

Corporate Communications Manager
at Mimsan

This is our 12th participation in the ICCI fair. As every year, it is again a renewed fair. We are quite satisfied with the number of visitors. Generally, representatives from every sector participate. Especially in the textile and food sectors, and visitors related to our business lines. ”

Photos from ICCI 2024

What Did They Say About ICCI 2024?

“ Ender Özatay

General Manager at Nordex Turkey, Vice President Responsible for Turkey and the Middle East, Vice President Responsible for the Industrial Group of TÜREB

We have been participating in the ICCI fair for 16 years. We met with our customers at a three-day fair, and I can say that we had a very lively and dynamic three days. We think that we will continue to participate with the same excitement as the companies exhibiting at ICCI. Our fair is currently in its new location this year. Hopefully, it will continue to grow like this, and we are happy. ”

“ Can Maralcan

Sales Manager at Enercon

Our expectations from the fair were to meet brands that did not previously know the Enercon brand, to directly explain the advantages of our defined wind turbines to them, and to increase our brand awareness. Additionally, we aimed to better understand what is happening in Türkiye and the world in the energy field, especially in renewable energy, through other participating companies and ongoing sessions here. The visitor profile at ICCI usually consists of a core group. These people form the backbone of the energy sector in Türkiye. We meet here for years and catch up. It is gratifying that these people are present here. The presence of students is also very important. Thank you for your efforts and for organizing this event. ”

“ İpek Yeğenoğlu

Human Resources Manager at Goldwind Turkey Energy Inc.

Our expectations from the fair were to meet new customers, strengthen our relationships with existing customers, hold meetings, and host them well. Our expectations were met. In the visitor profile, there were also senior executives and firms we had previously agreed with. There were also university and high school students. We are very satisfied with ICCI. ”

“ Hale Demirci

Proposal and Project Engineer at Teta Kazan

The fair was very crowded and enthusiastic this year. For two days, our participants had a very busy schedule with large-scale companies both domestically and internationally. We were really with many companies interested in energy both domestically and internationally, I can say this on behalf of my own company. In this respect, it was a fair that provided us with high quality and significant contributions, and I think it will be beneficial for our country. ”
